SOA Non-Conformance codes and SOA prices and reference products

New Zealand Post reserves the right to correct incorrect Statement of Posting forms. If the lodgement documentation does not reflect the characteristics of the actual mailing it will be changed and we will notify you of the change. Changes could result in your lodgement being charged at a different rate.

Our Statement of Accuracy requirement is 85%. Where your lodgement doesn't meet this we will add a Statement of Accuracy prefix to the original product code and you will be charged the rate shown in the column titled SOA prices and reference points on the portion between your actual SOA percentage and 85%. The remainder will be charged at the applicable Bulk Mail rate.

The SOA Non-Conformance code is the code that will appear on your invoice.

The column titled Reference product contains the product codes that relate to the prices shown and is for reference only.

The standard terms and conditions of the products and services offered by New Zealand Post Limited, including information on the extent of our liability, are set out in the Public Contract and the Postal Users' Guide.
